

Maritime College Engineering Department Administrative Policy

Title: Acceptable Engineering Elective Courses

No. 06-01

Date: 03.26.2006

Engineering Department advisors assisting in the selection of acceptable courses for "Engineering Elective" for all students at the junior or senior level shall be guided as follows:

1. The student may select any Engineering Department course offering at the 300, 400, or 600 level for which the student has the necessary pre-requisites.
2. At the advisor's discretion, and with the approval of the Science Department, a student may take a suitable offering in Computer Science, Oceanography, or Mathematics.

Engineering Department advisors assisting in the selection of acceptable courses for "Applied Engineering Elective" for non-license students at the sophomore, junior, or senior level shall be guided as follows:

1. The student may select any Engineering Department course offering at the 300, 400, or 500 level for which the student has the necessary pre-requisites.
